Note from Author	I humbly express my apologies for making errors in the previous publications, multiple errors were caught and this is so far, the worse incident of catching errors in translation.

Data-Type	
Integer	整数
Float	浮点
Double	大值浮点数
Long	64-位整数
Signed	正负涵盖
Unsigned	正数
Character	字符
String	字符串
Array	阵列
Object	对象
Boolean	是非组
Variable	变量

Programming Language Type	
Compiled	程序编译
Interpreted	程序解释
Compiler	编译器
Interpreter	解释器

Command in Programming Language and Their Description in Chinese	
IF	如果
Else If	若是
Else	若是以上皆非
For(int I =0; i<maxvalue; i++)	当 （起步 i = 0； i < 最高值； i++）
While （int i <maxvalue）	当 （i< 最高值）

Do … While	至少执行一次再重复执行
Loop	循环/重复执行

```
atic void Main(string[] args)

 //到开程序的字符串输出
 Console.Write("大家好！ 欢迎来到控制台应用程式！");
 Console.ReadKey();
 Console.WriteLine("Welcome to this Console Application !"

*** The original file was sent by me through a person who know me through a forum and we exchanged e-mail addresses, he claimed to be from Nanyang Polytechnic School of Engineering. He explained shortly after sending that he doesn't want his name revealed for below reasons

- He is having some family issues thus not wanting exposure.
- He is not confident of his translation reliability, even if an editor is willing to help.

Nevertheless, his willingness to supply the translation allow us to be even closer to completion. He seemed to have deleted his account after the event as that forum page don't have a "deactivation" feature and I wasn't able to follow him afterwards.

I thank him for volunteering to share the document with me.
